

Flashing Yellow Arrow

In Spring 2017, motorists traveling in the City of Rancho Cucamonga will see a new Flashing Yellow Arrow (FYA) on certain traffic signals when making left turns. While the new flashing yellow arrow will look different to motorists and pedestrians, studies by the Federal Highway Administration suggests they are more intuitive and safer than traditional signals when drivers turn left and must yield to oncoming traffic.

What Do the Arrows Mean?

Solid Red Arrow

Drivers intending to turn left must stop and wait. Do not enter an intersection to turn when a solid red arrow is being displayed.

Solid Yellow Arrow

The left-turn signal is about to change to red and drivers should prepare to stop or prepare to complete a left-turn if they are legally within the intersection and there is no conflicting traffic present.

Flashing Yellow Arrow

Drivers are allowed to turn left after yielding to all oncoming traffic and to any pedestrians in the crosswalk. Oncoming traffic has a green light. Drivers must wait for a safe gap in oncoming traffic before turning.

Solid Green Arrow

Left turns have the right of way. Oncoming traffic has a red light.

The new traffic control devices will be installed at the following locations:

Milliken Avenue
and
Victoria Park Lane
.....

Milliken Avenue
and
Terra Vista Parkway
.....

Milliken Avenue
and
Mountain View Drive
.....

Carnelian Street
and
Banyan Street
.....

Utica Avenue
and
6th Street
