January 8, 2018

Dear Mr. Elayyan,

I would like to take the opportunity to commend the City of Beverly Hills for the outstanding achievement of the N. Santa Monica Blvd. Reconstruction project. Our City appreciates the extensive coordination efforts that City of Beverly Hills initiated and maintained with City of West Hollywood throughout the duration of construction, and the results were extremely impressive. Traffic flow between our two cities experienced very little disruption in despite of the very high volumes of traffic that traverse our cities. The collaboration efforts made by Beverly Hills with our City ensured that traffic impacts were minimized due to early planning and continuous coordination to evaluate and address West Hollywood traffic needs, which was given priority throughout the N. Santa Monica Blvd. Reconstruction Project. West Hollywood was happy to dedicate one electronic sign board to notify motorists of your neighboring project. We appreciate the partnership and sharing of information between our Cities which enables us to best coordinate our concurrent projects and to provide stellar customer service to our constituents and commuters. Congratulations on a well-delivered project and we look forward to continued cooperation in the coming years.

Sincerely,

Hany Demitri, P.E., T.E.
Acting City Engineer
